The Mattress is a luxury 8.5" thick (when manufactured, approximately 7.5" after compression) and 75" long with Z spring technology that provides the most supportive sleeper mattress offered. The patented design allows the mattress to rest in a closed position without crushing and prevents premature wear. "No uncomfortable bar in back" guaranteed for the life of the mattress. Dual innerspring consists of 13 gauge coils. CFR 1633 compliant.

Contract mechanism is made of a heavy gauge steel designed with offset and channel-features that add durability and strength. Soft-lock and heavy gauge springs provide feather-touch open/close function. 1200D poly-decking provides a fortified sleep surface. Substantially thicker tubing resulting in greater strength. Double grip nylon handle with seven mounting screws. Engineered to encapsulate a zen pillow top mattress.
